<b>Descripción general de la ayuda, Candidatos y Propuestas</b>	
<p>CURE’s investigator-initiated grants program seeks to push the envelope and accelerate promising research leading to disease-modifying breakthroughs for people living with epilepsy. CURE prioritizes highly innovative, risky, paradigm-shifting projects that address CURE’s mission to cure epilepsy, affirming our core belief that the only acceptable final goal is “no seizures, no side-effects.”</p> <p>CURE strongly encourages multidisciplinary, collaborative projects, especially those that include investigators and expertise from fields outside of epilepsy. The following 2017 priority areas reflect CURE’s focus on advances that have the potential to truly transform and save lives. Prevention and disease modification/elimination are critical goals and consistent with our mission.</p>	
<b>Financiación y Duración</b>	
<p><b>Budget:</b> Requests may be made for up to a total of \$250,000 paid over 2 years. Funding requests may include salary support for the PI, technical staff and/or collaborators; supplies, animal costs, etc.; and travel to an epilepsy-related conference if the PI is presenting his/her CURE-funded research. Indirect costs are not supported</p>	
<b>Procedimiento para la solicitud</b>	
<p>All applicants must submit a Letter of Intent (LOI) via our online application portal proposalCENTRAL (<a href="https://proposalcentral.altum.com">https://proposalcentral.altum.com</a>). In order to begin an application, applicants will need to create a proposalCENTRAL professional profile, if one does not already exist. Please fill in all required fields in the online application form.</p> <p>Instructions for each section of the online application:</p> <p>1) <b>Title Page:</b> Enter proposal title (maximum 150 characters, including spaces). 2) <b>Download Templates &amp; Instructions:</b> Download additional copies of these guidelines, if needed. 3) <b>Enable Other Users to Access this Proposal:</b> Use this optional section to grant access to a collaborator or co-investigator. 4) <b>Applicant/PI:</b> This section should auto-populate from the applicant’s professional profile. Double-check that the information is complete and correct. If it is not, click Edit Professional Profile to update the information. Indicate whether you are an early career or established investigator. 5) <b>Institution &amp; Contacts:</b> Information should auto-populate from the applicant’s profile. 6) <b>Collaborators/Co-Principal Investigator:</b> Please enter information for any co-investigators or collaborators, if applicable. 7) <b>Keywords:</b> Add at least 3 keywords that best describe the specific focus of your research proposal. Page   3 8) <b>Current and Pending Support:</b> List all current and pending support for you and any coinvestigators. Pending support includes grants that have been submitted but for which decisions have not yet been communicated. Current and pending support is required for the PI and co-PI, but is not required for collaborators. 9) <b>Attach LOI (Letter of Intent):</b> Once the LOI is finalized per the instructions below, attach by uploading the PDF into this section of proposalCENTRAL. 10) <b>Validate:</b> The system will check for required components that have not been completed. Applicants will not be able to submit until all required fields are completely filled out. 11) <b>Submit:</b> Make sure to hit Submit after your application has been validated!</p> <p>Inquiries: Questions regarding these guidelines are welcome and should be directed to Liz Higgins at <a href="mailto:Liz@CUREepilepsy.org">Liz@CUREepilepsy.org</a> or 312-255-1801.</p>
